Education

Shri Ram Group of college

Bachelor of Computer Application
Muza ffarnagar | August 2021-2024
CGPA: 7.5/10.0

SD Girls Inter College

Senior Secondary (Class XII)
Muzaffarnagar | April 2021

SD Girls Inter College

Secondary (Class X)
Muzaffarnagar | April 2019
CGPA: 7.5/10.0

Skills /Interests/ Languages

- OOPS
- Java
- HTML
- SQL
- JavaScript
- React Js

Positions Held

- Organized and executed campus events, engaging over 200 students.
- Member of Color's Function SRGC
- Lead class meetings and represented student interests to faculty and administration.

Achievements /Certificates

- Earned HackerRank SQL Basics Certificate demonstrating core SQL querying and data manipulation skills.

Experience

OASIS Infobyte | INTERN

- Developed responsive web pages using HTML, CSS, ensuring cross-browser compatibility
- Implemented modern front-end and Foundation to streamline development processes and enhance user interface design.
- Actively participated in virtual team meetings, providing updates on project progress, sharing insights, and contributing to problem-solving sessions Took the initiative to lead small project teams for specific tasks, ensuring timelines were met and quality standards were upheld.

Magic Edtech   [7-Oct - 24] – [29-Feb-25]

- Utilize JIRA for task management, sprint planning, and tracking team progress, ensuring smooth collaboration and transparency across projects.
- Apply strong problem-solving skills to resolve complex technical issues, ensuring continuous improvement and optimization of business processes.
- Develop and apply software development lifecycle and delivery methodology. Worked with multiple tools to support
- development, testing, and project management, enhancing overall project workflow and delivery.
- Applied communication skills to interact effectively with both technical and non-technical stakeholders, ensuring clear understanding of requirements, progress, and challenges.

Projects

DevMark Studio Creative Website

- Developed and deployed DevMark Studio project using Bootstrap, PHP, SQL, and XAMPP as a local development environment
- Provided services, including Application Development, Web Development, and Digital Marketing solutions.
- Implemented CRUD operations in PHP to manage dynamic content and ensure seamless data manipulation (create, read, update, delete).
- Designed a responsive and user-friendly website interface with Bootstrap for enhanced user experience across multiple devices
- Utilized SQL to structure and manage the database, ensuring efficient data retrieval, storage, and security.
